

## INTEGRATED MANAGEMENT POLICY

TotalEnergies Brasil Distribuidora operates in the Brazilian market for Fuels, Lubricants, and specialties, based on its main commitment in the production and marketing of competitive products that satisfy the needs of our customers and shareholders, maintaining a safe, hygienic workplace and operating in a responsible manner towards the environment, taking into account the principles and expectations contained in One Maestro.

Our principles are:

- 1 Prioritizing the integrity of all employees, carrying out work that prevents injury and occupational disease.
- 2 Working continuously and preventively to qualify employees, improve facilities and partnerships with Suppliers and Customers aiming at better products, services, working conditions and industrial hygiene to avoid material, property and personal damage, fire, environmental pollution.
- 3 Managing centers according to the applicable rules of the PATTCOM program, aiming at increasing efficiency, quality and guaranteeing safety, health, and prevention of the environment in the road transportation activities of our products.
- 4 Satisfying and meeting the requirements of our customers and shareholders.
- 5 Complying with the laws, rules, and regulations relevant to the company's products, processes, and activities.
- 6 Sharing with our employees the responsibility for Hygiene, Safety, Quality of services, products, and environmental protection.
- 7 Continuously improving the effectiveness of the Integrated Management System.
- 8 Working continuously on the implementation of the Total Group's programs.
- 9 Working to meet One Maestro's expectations and principles in our activities.
- 10 Working towards improving our operational profitability.
